

Pioneering Spirit Campaign

YOUR HOMETOWN HEALTHCARE

It was with compassion, vision, determination and perseverance that Pioneers Medical Center was started in 1950, and we honor that pioneering spirit today by asking you to support the progress of our hometown healthcare.

PioneersHealthFoundation.org

Freeman Fairfield laid the foundation more than six decades ago for compassionate and trustworthy healthcare services in our hometown. Now we are excited to extend that legacy with the construction of a new medical facility that aims to enhance the health of each person who lives, works and plays near Meeker.

The launch of a new Pioneers healthcare facility is an exciting new chapter in the proud history of Pioneers Medical Center, Meeker Family Health Center and the Walbridge Memorial Wing senior living center!

Similarly, pioneering hearts like Adelaide and Lewis B. Walbridge expressed their devotion to our community by bequeathing their wealth to expand healthcare in Meeker. From that generosity was born the Walbridge Memorial Wing, which provides skilled nursing services and a home-away-from-home for those needing long-term or senior care.

Through the examples of people like Mr. Fairfield, Mr. and Mrs. Walbridge and other local leaders, we can see how one action – one caring heart – can forever impact the lives of individuals and an entire community!

These examples of love for humanity and one's neighbors show us the power we have to make a difference.

Such inspirational stories are the motivation behind the Pioneering Spirit Campaign. Will you invest in strengthening hometown healthcare and channel your "inner pioneer" to help guide the progress of the care you expect, need and want from Pioneers Medical Center?

Show Your Care. Step Forward to Say Your Community Can Count On You.

PLEDGE TO BE A PIONEER.

345 Cleveland Street
Meeker, Colorado 81641

*Pioneering Spirit Campaign:
Investing in the Care You Count On*

The new healthcare facility will be constructed on the Meeker Terrace property, a site providing stable, low-expansive soils for cost-effective building and maintenance and a flexible footprint for ample parking and any expansion needs. We have a vision to create a new and improved medical center truly designed around our community's current and future needs. We expect construction to take about 18 months and the new facility to open in July 2015.

Being a Pioneer is about championing the quest to improve life for yourself, your family, your neighbors... It's as simple as joining in our journey to build a better future.

Pioneers Medical Center, the only healthcare facility within a 40-mile radius, continues to be a cornerstone of the Meeker community and local economy. But after more than six decades, the needs of local families, businesses and area visitors have dramatically changed – and we've seen vast improvements in standards of care and the evolution of technology!

Drawing upon five years of diligent research and financial planning, Pioneers chose to build a new facility at the Meeker Terrace location and saved enough cash to secure direct loans and avoid the need for bond funding.

When we broke ground on March 21, 2014, to build a new facility, we committed to not only continue the many services and compassionate care you count on, but to invest in modernizing our facilities and upholding the latest in healthcare standards, technology, privacy and comfort.

Beyond the long-overdue building infrastructure improvements, the new facility will feature updates to address handicap accessibility, privacy and safety for both patients and staff.

We hope that community members and businesses will recognize the value in having a modern facility and high-quality services closer to home and want to be a part of this exciting new project!

The baseline cost for the project is \$47 million and is privately financed. However, approximately \$2 million is needed for new services and technology advancements that Pioneers will fund through grants, business investment and community donations.

Through community support, we plan to include amenities like:

- **FLEXIBLE, PRIVATE ROOMS** adaptable to address unique needs like isolation, bariatric or hospice care.
- **PHYSICAL AND OCCUPATIONAL THERAPY RESOURCES**, such as kitchen and bathroom learning centers, transitional care beds and stroke recovery support.
- Improved **OUTPATIENT TREATMENTS** to include chemotherapy, pain management, infusion care and surgical recovery options.
- An expanded **MEEKER FAMILY HEALTH CENTER** with additional exam rooms, three procedure rooms and dedicated pediatric resources.
- A redesigned **WALBRIDGE MEMORIAL WING** to help aging members of our community stay in a comfortable, home-like environment with private rooms, multiple living and gathering spaces, and new baking and gardening options.
- **INDUSTRY-SPECIFIC SERVICES** including a decontamination area in the Emergency Department and resources for cardiac stress testing, hearing testing, new employee physicals and workers compensation exams.

Let's Inspire a New Generation of Pioneers

In line with their mission – to inspire a healthier community through philanthropic support of preventative care services, healthcare education and technology applications that improve quality of care – the Pioneers Healthcare Foundation is challenging each and every one of us to tap into our own Pioneering Spirit and to support the next evolution of Pioneers Medical Center.

YOUR GIFT PROMOTES

- Quality healthcare in our community
- Expanded local health services
- The convenience and compassion of close-to-home care

There are many ways you can help sustain and build quality healthcare in our hometown. Show your Pioneering Spirit with a donation to support new technology, a gift in honor of a loved one, sponsorship of a room or new services, and by helping to spread the word in support of this project. For a list of donation/sponsorship options, please visit PioneersHealthFoundation.org.

Pledge to Make a Difference

Your donations are tax-deductible under the Pioneers Healthcare Foundation's 501(c)3 status, and you will be recognized according to your accumulative or ongoing support level.

"FAIRFIELD" VISIONARY LEVEL – Greater than \$50,000
"WALBRIDGE" LEGACY LEVEL – \$10,000 to \$49,999
COMPASSIONATE "PIONEER" LEVEL – Up to \$9,999
